BSS-E48315	Sanitizing Station, Aluminum, Accommodates Sanitizer/Face Mask Dispensers, Supply Cabinet, Black
------------	--

Help customers, employees, and visitors feel safe in your facility by providing self-service sanitizing stations.

An accessory bracket allows a touch-free temperature scanner to be attached for fever detection.

Free-standing or bolted to the floor, these stations are constructed of durable aluminum with powder coat finish.

These stations provide refillable hand sanitizer dispensers and facemask boxes.

Available in multiple standard colors or take advantage of our color matching service so that the station blends into your décor.
